

Choctaw Wellness Center Exterior Window Film Installation Project

Lerma Film Crew Case Study

Lerma Film Crew Collaborates With Renown Texas Window Film Company to Complete Custom Wellness Center Project

In the Summer of 2018, Lerma Film Crew was able to collaborate with Dallas/Fort Worth expert window film company Home Window Tinting and Commercial LLC on a 6,300 sq ft wellness center project.

The building was the Choctaw Wellness Center and the need was an exterior window film installation. Lerma Film Crew added their experience, expertise and possibly the most important their project management for a successful completion that took Tim a moment to reflect. "The job went very smoothly. Everyone did what they said they were going to do, when they said they were going to do it." He also mentioned the timely communication allowed him to rest easy and focus on another job his team was completing.

The film used was Dual-Reflective, Titan Xtra 07 from HanitaTek. The project required extensive maneuvering of an outdoor lift plus the crew also installed a taped and tooled clear edge seam. "This has changed the way we do business. I now will be searching for jobs of this caliber because Lerma Film Crew practices what they preach," remarked Tim. In the past, his reputable company could not bid larger jobs. They couldn't risk their daily bread and butter that maintains the business.

Case Study Highlights

- ✓ Exterior window film installation
- ✓ 6,300 square feet
- ✓ Significantly reduced turnaround time
- ✓ Substantial cost savings

I am not easily impressed, but I want to tell everyone how impressive Lerma Film Crew was!

Tim Miller, Owner of Home Window Tinting and Commercial LLC
